

# IT’S ALL HERE: LET’S TAKE ON WHAT’S NEXT.

## AVIATION SOLUTIONS:

- Airfield Lighting Design
- Airside & Landside Design
- Airport Planning
- Airspace & Obstruction Analysis
- Building Systems Assessment & Design
- Capital Improvement Program Development
- Construction Administration
- Environmental Assessments
- Facilities Planning & Design
- Gate Planning/Aircraft Modeling
- Land Use Planning & Site Development
- NAVAIDS
- Runway, Taxiway & Apron Design
- Sustainability Planning

## BUILDING DESIGN:

- Architecture & Interior Design
- Building Condition Assessments
- Education & Healthcare Planning
- Energy Studies/Power Generation
- Life Safety & Security System Assessment & Design
- Buildings Master Planning
- Mechanical, Electrical, Plumbing & Fire Protection (MEPFP)
- Stormwater Management
- Structural Engineering

## DESIGN/BUILD:

- Architectural & Engineering Design
- Construction Oversight/Management
- Cost Estimating & Budgeting
- Feasibility Studies
- Permitting & Compliance
- Preliminary Design
- Project Closeout, Post-Occupancy Review & Post-Construction Services
- Project Planning
- Value Engineering

## DIGITAL SOLUTIONS:

- Asset Management Services
- Building Information Modeling (BIM)
- Computerized Maintenance Management System Deployment
- Computerized Maintenance Management
- Computerized Calibration Management Support
- Data Model Consulting & Implementation
- Facility Indoor Mapping
- Field Data Collection & Solutions
- Geospatial Mapping Services & Reporting
- Geospatial Software Solutions
- Interactive Mapping & Dashboard Solutions (Public Engagement)

## ENVIRONMENTAL AND SUSTAINABILITY:

- Air Quality Testing & Permitting
- Brownfield/Brightfield Program Services
- Environmental Impact Analysis & GIS Inventories
- Environmental Licensing, Permitting & Compliance (State & Federal)
- Geotechnical Investigation & Design
- Habitat Management Plans
- Hazardous Materials Assessment
- Invasive Species Management
- Landfill Design, Closure & Monitoring
- Planning & Ecological Studies
- Site Investigation & Remediation Design
- Stream Assessment & Restoration
- Sustainability Planning & Design
- Threatened & Endangered Species Surveys

## FIRE PROTECTION SOLUTIONS:

- Design-Build
- Fire Safety System Assessment & Design
- Fire Suppression
- Fire Alarms
- Inspections, Testing & Maintenance
- Installation, Startup & Commissioning
- Materials Procurement
- Owner Training & Technical Support
- Project Management & Construction Oversight

## GRID RESILIENCY AND ENERGY TRANSITION SOLUTIONS:

- Asset Integrity Assessments
- Electric Distribution & Transmission Design
- Gas Engineering
- Geothermal, Wind, Solar, EV Infrastructure
- Linear Permitting & Licensing
- Program Management & Owner’s Engineer Services
- Protection, Control & SCADA Design
- Regulatory Assistance
- Storm & Feeder Hardening
- Substation Design & Interconnection Services

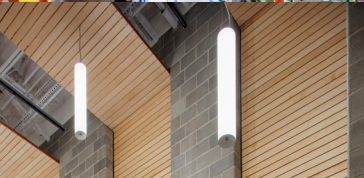

## LAND DEVELOPMENT SOLUTIONS:

- Brownfield Redevelopment
- Campus Planning & Design
- Climate Risk Assessments
- Community Engagement
- Construction Support Services
- Due Diligence/Feasibility
- Entitlement Services
- Erosion Control
- Flood Studies
- Green Infrastructure Design
- Landscape Architecture
- Municipal Engineering & Planning
- Permitting
- Site Planning & Design
- Stormwater Management & Design
- SWPPP (Stormwater Pollution Prevention Plan)
- Utilities
- Urban Planning
- Utility Assessment & Engineering
- Visualization Services

## MANUFACTURING AND ADVANCED TECHNOLOGY FACILITIES:

- Chemical & Process Engineering
- Commissioning (Cx) & Retro-commissioning (RCx)
- Electrical Arc Flash & Coordination Studies
- Emergency Power Systems
- Energy Solution Implementation Services
- Industrial, Commercial & Institutional Energy Assessments
- Instrumentation & Control Design
- Industrial Plant Planning, Design
- Power & Thermal Generation, Distribution & District Energy
- Process Safety Management (PSM)

## NET ZERO BUILDINGS SOLUTIONS:

- Energy Audits
- Renewable Energy/Building Design
- Smart Building Design
- Space Planning
- Sustainable Building Design
- Sustainable Design Initiatives: Stretch Code, LEED, CHPS & Passive House

## PROJECT AND CONSTRUCTION MANAGEMENT:

- Budget, Schedule & Value Management
- Construction Monitoring & Field Management
- Consultant/Contractor Selection & Coordination
- Cost Estimating & Management
- Design & Construction Documentation & Review
- Funding Consultation & Facilitation
- Life-Cycle Cost Analysis
- Owner’s Representation & Project Management
- Preconstruction Services
- Preliminary Planning & Feasibility Studies
- Project Closeout, Post-Occupancy Review & Post-Construction Services
- Risk Management & Mitigation

## SPORTS FACILITY DESIGN:

- Facility Evaluation
- Full Engineering Design
- Full Indoor/Outdoor Sports Design
- Landscape Architecture
- Permitting, Survey, and Geotechnical Engineering
- Sports Architecture
- Sports Master Planning (Campuses, Buildings, and Outdoor Facilities)
- Sports Turf Design and Evaluation

## TRANSPORTATION SOLUTIONS:

- Accelerated Bridge Construction (ABC) Design & Consulting
- Bridge Design & Analysis
- Bridge Inspection & Reconstruction
- Construction Engineering & Inspection
- Highway/Roadway Design
- Hydraulics, Hydrology & Scour Studies
- Intelligent Traffic System Design (ITS)
- Multi-Use Path Design
- Rail Track & Facilities Design
- Smart Cities
- Traffic System Management & Operations (TSM&O)
- Traffic Data Analytics
- Traffic Operations/Corridor Management
- Traffic Studies & Design

## WATER/WASTEWATER/SEWER:

- Advanced Water Treatment, Storage & Distribution System Design
- Combined Sewer Overflow (CSO) Treatment & Control
- Disinfection By-Product Control, Distribution Water Quality Modeling & Unidirectional Flushing Programs
- Flood Management
- Hydrologic & Hydraulic Modeling
- Industrial & Municipal Wastewater Treatment
- Membrane Treatment, Granular Activated Carbon & Ozone Treatment
- Open Channel & Bridge Hydraulics
- Pipeline Design
- Potable Water Treatability Studies & Pilot Testing
- Pump Station Design, Startup, Operation & Maintenance Support
- Septic-to-Sewer Studies & Design
- Sewer Assessment & Rehabilitation
